CALIFORNIA STATE LIBRARY

Two Operas To Be Given This Week

Preparations for presentation of the first operas to tbe given in Redwood City were being made today by Hal Honore' and the Pacific Opera Co., under the personal direction of Arturo Casiglia.

Saturday at 8 p.m. the opera "Pagliacci" by R. Leoncavallo will be presented in the Sequoia High School auditorium, and Sunday at 2:15 p.m. the "Barber of Seville" by G. Rossini will be presented.

Maestro Casiglia, conductor of the Pacific Opera Co., is a graduate of the Royal Conservatory of Music. He was born in Palermo, Italy. He spent the first years of his career as a grand opera conductor in Italy, where he was acclaimed for his inspiring leadership and rare gift of imparting to his operatic productions sincerity of spirit and warmth of expression.

Admission prices to the performances are $1.10, $1.65 and $2.20, including tax. Tickets may be secured at the Musso Drug Co., Broadway and El Camino Real.

HIGHWAY CONTRACT

Peter Sorensen, Redwood City construction contractor, today was awarded a California State Hwy. contract for removing and replacing a portion of a concrete box culvert near Waldo Point, Marin Co., Associated Press reported.

USO Needs Razors, Ping-Pong Balls

The USO isn't conducting a salvage campaign, but the need for ping-pong balls and razors became acute yesterday and the organization turned to the Tribune for a communitywide appeal.

According to Mrs. Thomas Cutting, the ping-pong games have come to a halt for lack of pellets, now unobtainable on the market.

And razors, too, supplied to service men on leave, are unobtainable, she said.

Any old ping-pong balls or razors around the house? The USO wants them at the canteen on Jefferson Ave. near Broadway.

Railways Plan Postwar Developments

San Mateo County, which has an important stake in the nation's huge travel business, is one of the regions of the country that should benefit considerably as a result of the aggressive postwar plans of the competing factors in the transportation industry.

Railway Age, reporting a survey of railroad executives in its current issue, says that the railroads are going out vigorously after more business when the war is over. The executives interviewed unanimously declared their intention of "doing everything in their power" to make railroad travel far more attractive to the public.

R. C. Youth Killed In Action

Word of the death of PFC Lloyd E. Petersen, 19, son of Mr. and Mrs. Harvey E. Petersen, 421 Fourth Ave., was received here this week. Private Petersen served in the marine corps and had been stationed in the South Pacific.

A telegram announcing that he had been killed in action was received by his parents. No details were given.

Peterson attended Sequoia High School. He left in his junior year, two weeks after Pearl Harbor, to enlist in the marines.

He leaves two brothers, PFC Carl H. Peterson, stationed at Camp Carson, Colo., in the medical corps, and Willard Peterson, a senior at Sequoia High School.

Petersen's death was the second war fatality reported here in the past week. Last Tuesday, an associated Press dispatch listed Pvt. Leon D. Murray, brother of Mrs. Opal H. Walker, formerly of 430 First Ave., Redwood City as killed in action in the European theater of operations.

Mrs. Walker, however, had left her home on First Ave. last December. The telegram was returned to the post office.

Stars on Redwood City's service flag now number 5 and Sequoia High School's service flag, 10.

Those represented on the Redwood City flag (inside the city limits) are Patrick E. Leahy, Stanley W. Dodge, Lawrence M. Green, Fred J. Sepulveda, Jack Golley.

Those on Sequoia High School Service Flag are Robert Edling, Stanley Dodge, Patrick Leahy, George H. Aabel, Bernard Robinson, Robert Whipple, John A. Rosek, Leroy Walton, Jack Golley and Petersen. Two service men, Robert Furnas and Carroll Harris, are listed in Sequoia records as missing in action.

M.P. Girl Wins Post In Christian Endeavor

Mavis Cleveland of Menlo Park is the new first vice president of the Santa Clara County Christian Endeavor Union, which includes church young people from the area as far north as San Mateo and as far south as Hollister. The new president is Ruth Johnson of Morgan Hill. They were installed last week at the closing session of the annual convention, held in San Jose.

BOY SCOUTS: Council President Appeals For Additional Leaders, Young Recruits

The following appeal was released today by Pres. Perry A. Bygdnes of the San Mateo County Boy Scout Council on the matter of urgent calls for more boys and men to join the Boy Scout movement:

"During these grim days for the preservation of life and national unity we must exert every ounce of our leadership and training. We commend every leader and scout for their useful service performed since the call to arms has been sounded by the commander in chief. We are organized for emergency service and we have stood the test. We will not relax and we will ever "be prepared." Hundreds of our older scouts and leaders have answered to our national call, in national defense construction projects: Hundreds have enlisted in the army and navy and many more will be called to the colors.

"We are confronted with a shortage of active scouts. There is only one thing to do. We must recruit; all boys 12 years and over must be given the opportunity to serve our nation now. Boys 15 years of age and over should made application for service with our Sea Scouts. We need men to serve as scoutmasters and assistant scoutmasters."

St[illegible] Receives Re[illegible]est for Funds

Receipt of a request by the State Department of Finance from City Mgr. Robert Mead for a grant of $1734 to Redwood City for maintenance of war services was reported today by Associated Press.

The city council here at a meeting Nov. 1 approved the request for funds.

One other request was reported from Stanislaus County asking for $425 for war service and $1475 to furnish beds for service men.

Folies Bergere Opens Nov. 30

Scores of the world's most gorgeous girls, a huge company of famed vaudeville stars, new settings, costumes, music and lights, have been blended together for the world premiere engagement of the Folies Bergere of 1944, which opens at Winterland in San Francisco, Tuesday, Nov. 30.

Clifford C. Fischer, impressario of the Folies Bergere, is personally directing production of what he states will be "the greatest of all Folies."

The world famous showman has been in San Francisco for weeks to advise in the transformation of Winterland, which has housed the dazzling Ice Follies, from its arctic atmosphere to scenes of French gayety.

Fischer's new 2½-hour show, with some of the best known names of vaudecille and scores of beauties in a cast of 120, will be presented nightly on the entire floor surface of Winterland, backed by a huge stage. The new show will present 12 giant scenes.

Some of the best known stars of vaudeville will frolic through the 2½ hours of French gayety:

Malcia, saucy little dancer who appeared in the Folies Bergere at Treasure Island in 1939; Barto and Mann, stars for three years in the "Hellzapoppin" show; the Cristiani's, world famous exhibition riders; the Shyrettos and their daring feats on one-wheel bicycles; Willie, West and McGinty, clown carpenters; Truzzi, sensational juggler; Jean Devereaux, the spinning ballerina; Ardelty, daring trapeze artist; Monroe and Grant, performers on the trampeline; Rollo and Verna Pickert and their tap dancing on stilts; and Harry Ritley, who stacks seven tables in the air and stands on them, are but a few of the stars of the world premiere.

Tickets for the Folies Bergere are now on sale at Winterland, Post and Steiner Sts., San Francisco, (15) and at Serman Clay box offices in San Francisco and Oakland.

Firemen Extinguish R.C. Grass Blaze

A small grass fire at 158 Lowell St. at 2:30 Monday afternoon was extinguished in a few minutes with no damage done, Fire Chief Mark E. Ryan reported today.

Firemen said the blaze was probably caused by careless burning.

CONSERVE AND SAVE FOR VICTORY!

PAMPER Your
WATER HEATER!
He's a priceless old dear!

Heavens to Betsy...wouldn't it be awesome if your water heater quit you cold? Here are four ways, however, to pamper the old dear to keep him happily and faithfully yours for a long time.

1. CUT DOWN ON WASTEFUL USE OF HOT WATER. Think before you draw even a quart or two of hot water. Was it necessary? Make it snappy when you take a shower. Rinse dishes in a pan...NOT under a running faucet. Use less hot water for a tub bath.

2. DRAIN YOUR WATER HEATER REGULARLY. To drain, open the valve on your heater and run water into a bucket until clear of sediment. That's all.

3. KEEP YOUR WATER HEATER CLEAN. Brush off the burner occasionly.

4. DO NOT HEAT WATER TOO HOT! If your water heater has an adjustable thermostat, set it to 120 degress. It will be easier on your plumbing, too. Remember call your plumber or repair man only when absolutely necessary. They are busy people these days.

Subscription Rates: One year, in advance.....$1.00

Entered in the Post Office at Redwood City as Second Class Mail Matter under the Act of March 3, 1879.

POST OFFICE: Despite Appeals, Christmas Mailing Lags in R. C.

Despite nation-wide appeals through press, radio and business concerns, Robert E. O'Connell, Jr., Redwood City postmaster, said today that reports from large post offices indicate little Christmas mail has been started on its way by the public.

A bulletin received by O'Connell states mailings up to Nov. 15 had been below expectations although the Post Office Dept. has urged people repeatedly to "Mail in November."

"Mail in November," the department cautioned, does not mean "Mail on Nov. 30." Mailings of a huge volume of gifts and cards in the last two or three days of the month will result in a serious congestion to post offices and transportation facilities with consequent delays.

Post office officials advise all who can to mail their packages at once and mark them "Do not open until Christmas."

"Should heavy mailings continue in December, it will be impossible to give any assurance of delivery by Christmas. This applies both to civilians and mail to members of the armed forces still in this country. Gifts, the department stated, cannot be permitted to interfere with the transportation of arms and supplies to our fighting forces.

Granger Notes Emmons' Warning

Mayor Floyd D. Granger today called attention to a bulletin received here from Gen. Delos Emmons, commanding general of this area, which points out that recent changes in dimout regulations do not affect blackout requirements.

Blackout statute requires that all lights visible from outside shall be extinguished immediately on sounding of an air raid alarm. Violation of the statute is punishable by fine and imprisonment.

Granger requested co-operation in complying with regulations in event of a blackout.

Soldier's Medal for R. C. Man

Brig. Gen. Alvin C. Kincaid, commanding general of the 37th Flying Wing, is pictured decorating Lt. John Addleman with the Soldier's Medal at Williams Field's graduation rites of Nov. 3. Addleman was cited for heroism in an attempt to rescue a pilot from a burning plane which had crashed.

Join the WAVES

No greater privilege was ever offered any woman than to don a Navy uniform and thus release a sailor to man our ships and fly our planes. That's what you do when you join the WAVES. You'll always be proud that you served, and the training, education and experience will enrich your life and expand your personality.

The Navy needs you. Pay is good, even compared with high war industry wages. Food, lodging, travel expenses and attractive uniforms ($200 to $250 worth to start) are included.

Learn, earn and serve... side by side with the Navy's fighting men. Call, 'phone or write your nearest Navy Recruiting Office.

THE WAVES DEPEND ON GREYHOUND

Greyhound serves the WAVES with vital transportation to and from the many bases where they are on duty. In addition, a large proportion of other service men and women travel by bus to training centers, embarkation points and on leave, and many buses are used exclusively to serve military camps. This diverts buses from civilian service; however, we are making every effort to take care of the traveling public under these difficult conditions, and greatly appreciate your cooperation.

COUNCIL: Instruments May Go to South Pacific

Redwood City band instruments may travel to the South Pacific with a Seabee battallion as a result of action taken by the city council at a meeting last week.

After listening to an earnest plea by Chief Robert L. White, of the Seabees, the council voted down a motion made by Councilman Carl Britschgi to deny a call for bids and passed a resolution to lease the instruments. The resolution passed unanimously.

Britschgi along with other councilmen were against giving up the instruments at first. The band, they said, was disbanded only temporarily.

White and Chaplain Curran told of the difficulties of acquiring instruments and the importance of music in keeping up morale. When Councilman Anderson pointed out that the instruments might be used locally for the hospital, White said that soldiers there will be able to listen to radios. In the South Pacific, radio reception is often barred.

Instruments would be well taken care of, he said. If it is possible they will be returned after the war. Instruments will carry plates with a name on them telling their origination. When they are returned, each will carry a plate telling where it has been.

As public notification must be made of the intention to lease, Carl Britschgi moved and Chester C. Armstrong seconded a motion to let the Seabee battalion have the instruments in trust for three weeks. Motion carried.

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

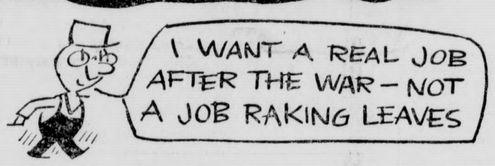
CREOMULSION
for Coughs, Chest Colds, Bronchitis

Hopkins Jewels Sold At Public Auction

Jewels owned by the late Mrs. Mary Kellogg Hopkins, who died last year, were sold in the court of Superior Judge A. R. Cotton here last week for $24,500. Highest bidder was the firm of Butterfield & Butterfield of San Francisco.

Mrs. Hopkins was the widow of Timothy Hopkins, California philanthropist and capitalist. Mrs. Hopkins owned the estate at Menlo Park on which the new Dibble Hospital is located.

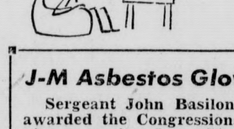
J-M Smokestack By Jim Asbestos



LET'S MAKE JOBS THE AMERICAN WAY

"To start postwar 'planning' with the assumption that the FIRST thing to do is to spend 50 billions on public works is a mistake," said Lewis H. Brown, President of Johns-Manville, in a recent address. "In all the 1930's, with all the 'public works' tried, we never came close to solving unemployment.

"The only possible solution is work in private enterprise. Hence, the first requisite is for government to announce clearly that we are not going to continue a war economy after the war; that private enterprise must prepare to go forward with confidence, assured that government will offer every reasonable inducement to the building of new productive equipment that will make jobs and eventually raise the standard of living."



ZING WITH BING!

"We're not winning yet. We've just stopped losing. A football coach once said that many a ball game has been lost in the last five minutes by a team that starts breakin' training before the whistle blew."—

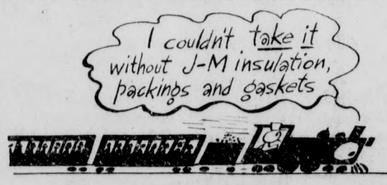
Bing Crosby

J-M Asbestos Gloves Help a Hot Shot

Sergeant John Basilone of the Marine Corps was awarded the Congressional Medal of Honor for stopping a major Jap offensive in its tracks with his machine gun. While visiting some buddies in the J-M plant in Manville, N. J., recently, John picked up a pair of asbestos gloves and said, "But for asbestos gloves like these, I'd be here today with my hands and arms still blistered from that gun."

HELPING THE RAILROADS HELP

For over 85 years, J-M products have been used by railroads. In each of the 75 trains required to move an armored division, you'll find J-M insulation in many passenger and refrigerator cars, and J-M insulation, asbestos packings and gaskets in the locomotives.



LITTLE JOURNEYS TO J-M PLANTS

Celite, mined and processed by Johns-Manville, at Lompoc, Cal., has many wartime uses. Used for filtering, it plays its part in the production of those marvelous new sulfa drugs, of pencillin and of atabrine, the substitute for quinine.

J-M Celite is also used in high temperature insulations without which the high speeds of our fighting ships would be impossible, and without which many war industries could not operate.

Celite is used also in camouflage paints to cut down the visibility of ships and fighting vehicles. Also, for filtering drinking water . . . Celite.

Behind the lines in powder and food factories, and in chemical plants, Celite does hundreds of wartime filtration jobs.

-Jim Asbestos

For classic tailoring, you can't go wrong with a Carol Brent shirtwaist! Expertly cut, with smart stitching at collar, cuffs and pocket. Acetate and viscose rayon in white and pastels. Sizes 32 to 40.
The same shirt with long sleeves 3.19

EDMONDS: Former Official On Leave in Redwood City

Lt. Col. Henry W. Edmonds is now spending a terminal leave from the Port of Embarkation, Charleston, S. C., with his wife at 227 Rogers St. while awaiting retirement from active duty on Jan. 1.

Colonel Edmonds, who was a Redwood City city councilman when he was called back to active duty three years ago next month, said today that he has made no plans for after his retirement, but declared "I'm going to keep busy—I'm not going to twiddle my thumbs in wartime."

He stated that it was "good to be back in Redwood City."

"One of the things I missed most when I returned here," Colonel Edmonds said, "was the hometown paper."

Colonel Edmonds, who had been confined to the Stark General Hospital at Charleston before his return here, said today he felt fine.

He had 25 years active service before he was called up from retirement. In World War I he was awarded the Silver Star, Purple Heart and Victory Campaign Badge with four battle clasps. He was promoted from captain to major for gallantry in action in the Meuse-Argonne offensive Sept. 29, 1918. He was promoted to lieutenant colonel last year.

Colonel Edmonds made a trip to Africa last Summer, but he declined to make any comment on his experiences today.

A few days ago he visited his son, Richard, at one time a Tribune reporter who is now on the staff of the Sacramento Union.

Before being called up from retirement, Colonel Edmonds engaged in the real estate business here. He was active in numerous veterans and civic organizations.

Cigarets En Route To Men Overseas

A case of cigarets, purchased by Redwood City people during the recent Cigaret Tag Day, conducted by American Legion Post 105, is now en route to army and navy men overseas, Harry Harrison, commander of the legion post announced today.

Harrison reported receiving a letter of thanks from Lt. Robert S. Hendrickson Jr., of the Fourth Air Force in San Francisco, telling of the shipments.

The navy's appreciation of the gift was expressed by Comdr. H. M. McKinley, who wrote, in part: "This will help make life a little easier for fighting Americans in far-off corners of the world protecting our sea frontiers, and will serve as evidence that their daily sacrifices are not going unheeded."

Highlands Group Re-Elects President

Directors of the Highlands Dist. Improvement Assn. last week re-elected E. Hoffman Price as president of the organization for the coming year. Also re-elected were 1st Vice Pres. William P. Kielty and Secty.-Treas. A. J. Bullerdieck. Other officers are Stanley Perkins, second vice president, and Stuart Copps, third vice president.

The group voted to contact county officials regarding the status of duration relaxations of zoning restrictions on keeping of live stock and measures for assuring their termination at the end of the war. Also discussed was the renewal of efforts to secure adequate remuneration for police service desired by residents of the Emerald Lake area.

The meeting was held at the home of Guy Farwell.

Cherry To Take Stanford Pictures

Donald L. Cherry, U. S. history teacher at Sequoia High School, has been asked by the editor of the Stanford Quad, Nan McLaren, to furnish four pictures for the 1944 Quad, annual senior year book to be published next Spring.

Cherry's pictures will be scenics of the Stanford campus, and they will comprise four of the eight to appear in the publication.

Pictures to be taken by Cherry will include a view of the front of the Hoover Library, the stadium from the press box, inner quad arches and the front of the basketball pavilion.

Cherry does photographs at Sequoia and also takes pictures for the Sequoia Times. He is an alumnus of Stanford, class of '28.

Some children's feet may grow from one to three sizes larger in as little time as four weeks.

HIRING: Bay Employers Must File Ceiling Forms

Bay Area employers of more than 50 persons were reminded today of WMC requirements for the filing of statements of employment ceilings by Thursday.

The reminder came from James P. Blaisdell, State WMC director for Northern California.

The order, imposing ceilings on all employment in 10 counties of the Bay Area, provides that all employers of more than 50 persons shall, by Nov. 25, file with the War Manpower Commission, 153 Kearny St., San Francisco, a declaration setting forth the name and address of the firm, kind of business and total employment, broken down to state the numbers of men and women employed on the date of the greatest total employment during October. The order applies to the total employed personnel in the 10 counties.

It established ceilings of employment at the total number employed on any one day during October and firms which fail to file the reports will not be eligible to hire workers, Blaisdell said.

In ascertaining total employment, full shifts are to be considered and part time shifts shall be converted to full time shifts for this purpose, Blaisdell said.

The order applies in San Francisco, Marin, Sonoma, Napa, Solano, San Joaquin, Contra Costa, Alameda, Santa Clara and San Mateo Counties.

Copies of the order are available at various trade associations and at the State WMC office, Blaisdell said. The full order also was published in advertisements in Bay Area newspapers last week.

Change Balks Peterson

County Executive Frederick Peterson today acknowledged that his powers to appoint members to the County Recreation Commission had expired and that it was now up to the board of supervisors to appoint members to that body.

The acknowledgement came after reporters pointed out to Peterson that both a charter amendment and the proposed code of administrative procedure specify that if the executive fails to make a new appointment to any commission or office within 30 days after the supervisors refuse to ratify an appointment, the board thereafter shall make the appointment.

The board on Oct. 19 refused to ratify five names submitted by Peterson, but at a later meeting the board ratified the appointment of Arthur V. Swift, Redwood City print shop owner who had served on the State Parks Commission.

The other four names submitted by Peterson were reappointments, but the board failed to ratify the appointments on the grounds that all lived within one mile of each other and therefore were not representative of the county.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Julia says- Celebrate Thanksgiving Thriftily

IT SEEMS to me we have a great deal to be thankful for, this Thanksgiving season. Here on the home front we're all working hard to bring Victory closer, and we have the deep satisfaction of seeing that work beginning to bear fruit. It's quite proper and fitting that we should observe the hallowed occasion of Thanksgiving Day by preparing something out of the ordinary for a special meal.

But we need not be extravagant. There are dozens of little tricks that will turn an otherwise ordinary dinner into something very like a feast.

No matter what your "main dish" may be, these suggestions will help to pull your Thanksgiving dinner into the realm of a celebration:

"Carrotatoes"

Ever try this method of using potatoes, for instance? You cook and mash potatoes in the regular way. Then you take as much mashed carrots or rutabagas (also cooked and mashed in the regular way). Combine the two, and you have something attractive in color and pleasantly exciting in flavor. If you want, the mixture can be placed in a casserole and given a brief oven treatment.

And here is my recipe for a favorite Thanksgiving pudding:

THANKSGIVING CARROT PUDDING

Sift 1 1/4 cups enriched flour; measure; sift again with 1 tsp. soda, 1/4 tsp. salt, 1 tsp. cinnamon, and 1/2 tsp. cloves. Cream 1/4 cup shortening with 1 cup brown sugar, firmly packed; add 2 eggs and beat well. Dredge 1 cup grated, raw carrots, 1 cup grated, raw potatoes, 1 cup raisins, 1/2 cup finely chopped candied lemon peel (optional), and 1 cup finely chopped walnut meats in 1/2 cup of the flour mixture, and beat well; add fruit-nut mixture. Fill well-greased 1 1/2 qt. mold 2/3 full; cover tightly. Steam 3 hours or until done. Serve with lemon or hard sauce. Serves 10 to 12.

R. C. Drive For Paper Hits Snag

Redwood City's drive for scrap paper ran into a snag today with salvage officials here reporting they did not want volunteer workers delivering paper to the warehouse in San Jose to receive abuse for their efforts.

The complaints came from several workers who reported that the Independent Paper Stock Co. in San Jose had "bawled out" young truck drivers and helpers who had taken down loads collected by Boy Scouts and school children in the current drive.

Frank A. De Patta, salvage chairman, said officials at the company complained because the papers were not tied properly and because truck loads did not get there early enough. He said that receipts for two truck loads of paper had not been given to the truck drivers.

County Fire Warden Bert Werder, who twice has sent down young men with loads, said today: "These school kids have done a swell job on the drive. They deserve credit, but I don't want to send my boys down there with a truck load just to get hollered at."

Werder said when the firemen can be spared they will take a truck load to the San Jose plant.

In answer, officials at the Independent Paper Stock Co. in San Jose said they were only making a legitimate complaint. Men at the plant work till 4 p.m. on straight time. With trucks coming in late in the afternoon, the men must be held later and paid overtime. One truck yesterday, the officials said, arrived at 3:50.

The company also complained because magazines were brought in paper cartons and paper bundles tied with insecure string.

"We can't use the cartons unless we break them down. Then we get only $7 a ton for them," the officials said.

Fragile string, he said, will not stand up under the numerous handlings that are necessary before the paper reaches the mill. If strings break, the paper must be sold bailed and sold as scrap for $7 a ton. He advised using bailing wire if string were not available. Commenting on the receipts he said drivers yesterday did not wait to pick them up.

Horace Duckenfield Jr. Now in The Dalles

Horace Duckenfield Jr., former student of Redwood City grammar schools and a graduate of Sequoia High School, is now established as a veterinarian in The Dalles, Ore., it was reported here today.

Duckenfield is the son of Mr. and Mrs. H. Duckenfield of Old County Rd., Belmont. After his graduation at Sequoia he attended Kansas State College, then Washington State College, where he graduated with a Bachelor of Science Degree. He obtained a master's degree in parasitology and the degree of doctor of veterinary medicine from Texas A & M College in September.

Burglar Takes 7 Rings

Seven rings with a total value of $3500 have been stolen from Mrs. Helen de Vry, 756 Haven Ave., Friendly Acres, the sheriff's office here reported.

Mrs. de Vry discovered the loss Sunday and notified the sheriff's office Monday. A statewide teletype giving a description of the missing jewelry was sent from the Redwood City office this morning.

Mrs. De Vry said she did not know how the house was entered. The rings, some of them keepsakes, had been hidden in the house.

Among the jewelry stolen was a large three-karat lady's diamond ring with a value of $2000 and the setting valued at $200. Other items taken were 2 Zircon lady's rings, 2 lady's little finger rings, 1 lady's yellow gold-style ring and 1 lady's yellow gold old-style Tiffany setting solitaire engagement ring.

Crowded schools are considered by authorities as contributing factors in growing juvenile restlessness reflected in a rise in truancy and children's offenses.

R.C. Civilian Defense Draws Fire as Waste Under Present Conditions

Foreshadowing future explosions in the city council over civilian defense Councilman Carl Britschgi at a meeting of the council last week came out bluntly with the assertion that civilian defense at the present time is useless and a waste of money. He was supported in his opinion by Councilman Evans Fletcher.

The charges came in a brief aside when a resolution was offered to have members of the Redwood City civilian defense organization participate in a State War Council plan for compensation of injuries incurred while carrying out civilian defense duties.

To the statement of Britschgi and Fletcher, Mayor Floyd D. Granger retorted, "Having no interest in civilian defense and not participating in it, you can't realize our problems."

Britschgi said he had more to say on the subject but added "it's kind of late tonight."

The resolution, adopted without a dissenting vote came near the end of a long meeting in which the council, at the insistence of several members moved cautiously in granting or denying requests so that further consideration would not reverse decisions, as has happened in the past.

After hearing protests from A. M. Carscallen, presiednt of Red Feather Products Co. Ltd., and Mrs. Cecil Wampler, a representative for Harold Saunders, who owns property nearby, against the proposed establishment of a second fertilizer plant south of Redwood City, the council agreed to give notice to the Fontana's Fertilizer Co., ordering the company to show cause why the permit to operate on the Bayshore Hwy. south of Redwood City should not be rescinded.

The council at its last meeting had granted permission to the fertilizer company, now on the Bayshore Hwy. near San Carlos, to move to a new location south of Redwood City. As yet the company has not moved.

The motion, made by Councilman Harold Anderson and seconded by Councilman Walter Hilton, also included a request to the health department to investigate the conditions arising from the operation of a fertilizer plant already in this district.

Carscallen as well as nearby residents said the flies and the smell from the plant were unhealthy and obnoxious.

Mayor Floyd Granger pointed out that permission had been granted at the last meeting after County and City Health Director Charles C. Gans said he did not know of any objection to the new location.

The application of R. H. Madden to establish a Farmers' Exchange in the same district was continued to the next meeting, so that residents could have a chance to protest.

Councilmen Hilton, Britschgi and Fletcher felt the exchange, which would sell mostly livestock, might have the same objectionable features as a fertilizer plant.

Dance permits to Eldon Algeo and George Solari for dances at Foresters Hall were granted with the restriction that no liquor be sold or dispensed on the premises. Answering Mayor Floyd D. Granger's questions, Police Chief C. L. (Mickey) Collins said conditions at the Wednesday night dance, conducted by Algeo "are getting to be terrible." Young service men, Collins said, cause the trouble. "When the sailors get a few beers in them they decide to clean the army."

Councilman Britschgi voted against the restriction, saying that it would not solve the problem. Service men, he said, would merely get liquor somewhere else. "If that hall is properly supervised," Britschgi said, "you won't have any trouble."

A motion by Anderson, seconded by Armstrong to request a detail of the shore patrol for Redwood City was passed unanimously.

The council also:

Continued to the next meeting a request by the Weltner Motor Co. for permission to operate a second hand car lot on El Camino Real.

Postponed action on a recommendation made by the traffic committee to take 50 feet of the lot of Mrs. Helena Flynn from the fire zone along El Camino Real.

The meeting was adjourned in memory of Jack D. Golley, son of Mr. and Mrs. John A. Golley, 1446 Hopkins Ave., who died at Garden City Airfield last Friday. Golley, an aviation cadet, died of spinal meningitis.

SAN FRANCISCO GIVES ADVICE

A few snorts were heard in the council chambers of the city hall when Ralph S. Dodge, city clerk, read a letter with a condescending tone from the San Francisco Board of Supervisors.

The letter advised the council that San Francisco had recently passed a curfew law and asked co-operation, requesting similar legislation be passed in other Bay Area cities.

Councilman Carl Britschgi said "They're four months behind us." He suggested sending a copy of the city ordinance and the county ordinance, which was passed six months ago, to San Francisco. Motion carried.

Redwood City To Boom After War

NEW YORK—Redwood City will have a $705,000 stake in the huge postwar building boom that is expected by the United States Chamber of Commerce, based on its nationwide survey conducted to determine the home-buying plans of American families.

The survey discloses, the chamber reports, that there will be a demand throughout the nation, in the year following the war, for 1,540,000 new low-cost homes at an average price of about $5000 each. Only 20 per cent of prospective purchasers, it was found, intend to spend more than $10,000 each.

The contemplated new building will add 3.5 per cent to the country's 37,325,000 dwelling units. Assuming uniform distribution and that Redwood City gets its proportionate share of new construction, there will be 141 homes build in the city, representing 3.5 per cent of the 4016 local dwellings reported in the 1940 census.

At a cost of $5000 each, the result will be a local construction boom that will unleash $705,000 for materials and for workers in the many fields that will be affected.

Such a building program, which would far exceed the all-time peak year of 1925, when we built 927,000 homes, shows, according to the chamber, that the American people have become more hopeful of prosperity and less fearful that widespread unemployment will follow the war.

Maine was the first state ever to vote dry, approving prohibition in 1846.

S.C. Man Held In County Jail

John Franklin, 29, of San Carlos, remained in the San Mateo County jail here today following his arrest Friday in Santa Cruz on a charge of contributing to the delinquency of a minor.

Franklin, driver for a Redwood City bus line, allegedly kept a 17-year-old girl in his company for several days on his regular bus route. He then took the girl to Santa Cruz to secure a license to marry her when he was apprehended, Chief Dep. Dist. Atty. Louis B. Dematteis said. The girl had been listed as missing from her East Palo Alto home.

Redwood City Ranks High In Building

Redwood City and Burlingame were among the first 25 cities in the Far West in value of building permits during the month of October, Western Building Magazine reports.

The magazine reports 181 Far Western cities issued 13,413 building permits in October for $24,612,323 worth of construction. Both number and total value of permits rose from 1942 levels, when the value was $20,325,430, according to Associated Press.

The five leaders, with permits over a million dollars each, were Los Angeles $4,379,849, Seattle $3,677,438, Oakland $1,783,855, Portland $1,552,495 and Long Beach $1,215,855.

Rest of the first 10: Spokane, San Diego, Tacoma, Vancouver, B. C., and San Francisco.

In the first 25 cities, in order behind the first 10 were:

Burbank, San Leandro, Alameda, San Bernardino, Victoria, B. C., Provo, Berkeley, Burlingame, Richmond, Denver, Stockton, Salt Lake City, Everett, Torrance and Redwood City.

M. P. Council Settles Argument

Bitter Words Punctuate Controversy

MENLO PARK—The two-month-old controversy that has been waged over the proposed rezoning of property in the general vicinity of Encinal and Laurel Sts., roughly known as the Gunn-Pembroke holdings, was settled last night amid a few bitter words when the Menlo Park City Council voted to rezone the parcel of land to a Triple A classification.

The decision was reached in the presence of two score property owners who favored the council's action to rezone under Section 12 of City Ordinance 55, and in the presence of J. W. Pembroke, principal property owner of the tract involved, who supplied a mildly spiced brand of verbal pyrotechnics to punctuate the council's decision.

Called upon to repeat his side of the case, Pembroke protested the proposed rezoning and charged the council with several violations of city ordinance law which he said invalidated the proceedings to date.

Pembroke charged, among other things, that he had received no notice of the proposed rezoning as required by ordinance; that no $10 fee had been filed with the application for rezoning; that no map defining the property had ever been presented as a city ordinance requires; that petitioners who lived more than 4000 feet from the property affected by the rezoning had affixed their names to the petition in violation of ordained law and the proposed classification change was not a public necessity, which he said was an essential stipulation of the ordinance fixing the procedure for rezoning.

In summing up his case, Pembroke said that constitutional rights which have ostensibly been dead all the weeks the council has been considering the rezoning of his property would return in part during "Bill of Rights Week" now but a few days in the offing, and as a parting shot he said the whole project was nothing but trick legislation promulgated by pressure groups who in the final analysis had no jurisdiction in the matter other than to meddle in affairs which did not concern them.

In rebuttal to Pembroke's charges, Councilman Edward McGurrin pointed out that the constitution still held full sway as proven by the fact that "majority still rules," and as proven by the fact that the council and two score interested property owners seemed likely to win over Pembroke's single-handed protests.

Pembroke didn't give a "damn," he was going to fight the "pressure groups" and "tricksters" with his last strength, and he punctuated his enthusiasm with his knuckles rapping the tabletop.

Councilman Bryant supplemented the rebuttal by pointing out that the proposed rezoning had not been undertaken by petition of property owners but had been instigated by the council in the interests of protecting the community against undesirable housing projects.

City Atty. James O'Keefe Jr., called on by Mayor Charles Oram, interpreted ordinance law, giving the opinion that the council had met all requirements in its action to date.

Pembroke maintained that he had rights in the matter, and to "hell" with it he would take the case to court.

Put to a vote the motion to rezone carried unanimously in the quorum present, Councilmen Cutter and Burgess being absent.

City Engineer Ed Smith, reporting on the Fremont St. improvement project, told the council that the job was not approximately 40 per cent complete. To date, he said, the city had spent $7000 on the work.

Earlier in the meeting the council passed motion to introduce an ordinance governing the rezoning of Block B, Pariso Park, to a Double A classification to make the zoning on both sides of the street conform.

Mayor Oram told the meeting that the city's general fund was low with only $1600 in it and that it was doubtful if normal expenditures could be met unless the fund were supplemented until the January county tax receipts came into the treasury.

It was voted to borrow $5002.10 from the bond redemption fund, using the city purchased war bonds in the same sum, as collateral for the loan.

Chief of Police Tom Kearney told the council that the proposed bus line between the Menlo Park depot and Dibble General Hospital was awaiting the action of the railroad commission in granting a franchise.

Engineer Smith asked permission of the council to unite his own office with the office of the building inspector by knocking out a petition, the work to be done without expense to the city. Reason for the enlargement was shortage of space in the engineering department.

'Barber of Seville' at Auditorium Sunday

Rossini's opera, "The Barber of Seville," featuring the eminent Salvatore Messina, Max Lorenzini, Salo Blumenthal, Amelia Scalzo, Truman Thompson, Armine Martin and Edward McKenna, under direction of Arturo Casiglia, will be heard in the Sequoia High School Auditorium on Sunday afternoon at 2:15.

Leoncavallo's "Pagliacci" will be sung on Saturday night at 8 o'clock. Pino Giuliani, Virginia Blair, late of Carnegie Hall, New York, Ernest Palnay, Nullo Carvacci and Max Lorenzini will sing the leads in this opera, which will be broadcast by the Office of War Information via short wave to Italy.

Tickets may be secured in advance from Musso's Drug Store, corner of El Camino and Broadway. The box office of the high school auditorium will be open at all hours on Saturday after 6 and Sunday from 10 a.m. for sale of tickets.

The number of girls under 21 arrested in the country in 1942 increased 55.7 per cent over the previous year.

Officials Give Warning On Checks

Police Chief C. L. (Mickey) Collins today announced the United States Secret Service at San Francisco is again warning persons in this vicinity who receive or cash checks to be watchful for mail thieves and forgers, as many allowance and allotment checks are going astray and are being cashed on forged indorsements.

To prevent losses Chief Collins and the secret service urge that the following rules be observed by those who receive checks.

1. Never indorse a check until you are actually in the presence of the person who will cash it.
2. Have a good, deep mail box. Have your name clearly printed on it and keep it locked.
3. Whenever possible, have your mail carrier deliver checks in person rather than to your box.
4. If you change your address, notify the post office immediately.
5. Cash your check at the same place each month. Cash it yourself; don't send children to cash checks. This encourages juvenile delinquency.
6. Do not fold, pin or mutilate allotment or allowance checks.

To those who cash checks Collins recommends:

1. Know your indorser.
2. Ask for positive identification. Before you cash a check, ask yourself this question—"If this check is returned, can I find the person who gave it to me?"
3. Never cash a check already indorsed. Have it indorsed again in your presence.
4. Require that all employes who cash checks initial them.

The secret service reports it has been engaged in a program of crime prevention since 1938 and in that time counterfeiting has dropped 97 per cent through educating the public in a "Know Your Money" program.

It is hoped that the present campaign against the check thief will reduce this activity as much. Every effort will be made, Collins said, to make this program succesful here.

S.F. Man Enters Not Guilty Plea

Herbert Davis, 26-year-old San Francisco married man, yesterday pleaded not guilty to raping a 67-year-old grandmother in South San Francisco Oct. 28.

Davis was arraigned in Superior Judge A. R. Cotton's court and the case was continued one week for trial to be set. He was accused of raping Mrs. Artemisia Ercoli, who has a number of grown children.

The world's loudest noise was the volcanic explosion in 1883 of the Island of Krakotoa, which was heard heard as far away as Bangkok, a distance of more than 1400 miles.

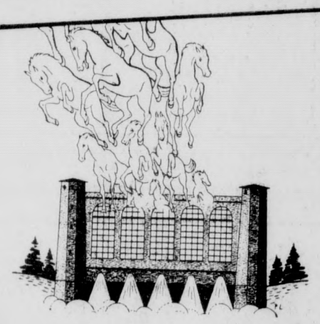
HORSEPOWER
TO BEAT AXIS ENSLAVED LABOR



If electricity flowing to war-busy California communities and military establishments could be seen and heard, the air over California would be awhir with the rush of winged horsepower reporting for duty.

War has brought a heavy demand for electricity. In a thousand and one jobs, electric horsepower is aiding in the victorious achievements in war production to beat the conquered and enslaved labor of Germany and Japan. In amount, this company is supplying power for war work equal to that needed to serve a city of 1,500,000 persons.

Meeting this war demand for electricity has taken planning ahead in engineering and purchasing and building. But what counts NOW are the men who have stayed loyally on the job of delivering this electricity. They are the power plant operators, the lake tenders, the linemen and the repairmen. They are our experienced old timers—2300 of our younger employees have gone to war.

From such a coordination of technical "know how" comes the effective delivery of electricity to military camps and war industries in dependable, unfailing supply.

Gas and Electricity are Vital in War Production
—do not waste them!
